

### Koko Dozo release new EP on Red Star Records

New EP To Be Released In March 23, 2010 on Red Star Digital Music- Label Run By Former New York Dolls Manager, A&R/record Producer Marty Thau

FOR IMMEDIATE RELEASE

Red Star Records has released KOKO DOZO's new EP, "Feel The Zuzz!" on March 23rd, 2010. The "ost-Disco" Duo from New York City claim to be immigrants from the planet, Bazbador. Any doubts about their lineage are quickly dispelled by strolling through their website and perusing SPACE ALIEN NATION, their galaxy's local newspaper. Red Star is run by former New York Dolls manager, A&R / Record producer Marty Thau (Suicide, The Real Kids, The Fleshtones).

Since the release of their first album, "Illegal Space Aliens," (subTEKst Recordings) in 2008, this daring duo has become a force to be reckoned with! Their single "Boomchi" became an instant dance-floor classic, and was included on the final season of Showtime's "The L Word".

Already the EP in one week of existence has inspired the following quotes of praise from Time Out NY, Blogcritics, Mudkiss, The Culture of Me and Nerdy Frames

"Polarity/1, multi-instrumentalist/arranger/composer/producer, brings the beat to Koko Dozo's space age disco thump. A veteran of all things electronic, he has four cult classic CDs of both electro-folk songs and all-instrumental electronica on sub-TEKst Recordings including one by Audioplasm. He also composes for film and for performances by Battery Dance Company and Quorum Ballet of Lisbon."

"Amy Douglas is a vocalist/pianist/songwriting extraordinaire who has been vaporizing the earwax of many a listener. With four and a half octaves worth of nuclear acid lung power at her disposal, she is a former member of the notorious Squeezebox House Band, and has worked with legends ranging from Jayne County to George Clinton. Now supplying the fire for many vets of the electro and house genre, from jazz to funk to punk, there is nothing her tongue hasn't torched."

"Bending genres and madly tweaking the DNA of Groove - their mission has proven successful thus far, as they've spread their funky virus to the delight of the blogosphere where they've accrued stellar reviews. KOKO DOZO was named IndieMusicUniverse's "Band of the Month" for September, 2009."

So with that, prepare your eyes and ears for a whole new brand of Space-Funk! Space...is THE FACE!
